**“**  
Every time you buy Organic Products, you are encouraging more farmers to grow organic.  
**”**

## About Us

Budding Green falls under the category of Organic food providers, where we believe that the food not only nourishes our body but also our soul and the mind. A nutritious balanced diet is the easiest way to a healthy body and a happy mind.

Our founder Jhalak Chandak Bhattacharya started this an year ago, following his passion to spread the concept of holistic wellness along with providing support to our farmer's community to rejuvenate the soil and evolve the future of food. Our team also takes pride in helping our customers lead a healthy life. We are collaborating with like-minded people and also working directly with farmers, who are helping in giving purity and taste to our consumers.

Our main goal is to usher India into a golden age of health, where we strengthen our ties with Mother Nature and learn how to use food as not just nutrition but also as medicine for the body.

**OUR MISSION**  
Our mission is to provide maximum purity and best quality organic food to our consumers. Our main focus is on growing food which is sustainable and environment friendly too.

**OUR VISION**  
Our vision is to achieve the leadership of organic food in India, by conserving mother nature and also by providing a one-stop platform to our consumers and distributors. We also aim to support farmers by encouraging organic farming and giving them more benefits which they deserve.

**WHY CHOOSE US**

- **Organically Produced** - Our food is produced without the use of any synthetic chemicals.
- **Tastes better** - Our food tastes better as it is allowed to grow at its own pace rather than being sped up by using fertilizers.
- **Super healthy** - Lack of pesticides makes our food rich in nutrients such as Vitamin C, iron, and magnesium.
- **Supports local economy** - Choosing organic is not only about what's best for your body but it's also what's best for your fellow citizens and especially those who work in the fields to provide the products you eat every day.
- **Eco Friendly** - We advocate for easy and nutritious food which is produced in a sustainable manner using regenerative farming methods that are good for the environment.
